DEAR ROD:
HERE IS THE DOCUMENTATION FOR YOUR LATEST KEYBOARD. FROGGER DID NOT WANT TO LOAD ON MY REGULAR TAPE RECORDER. LUCKILY, IT LOADED LIKE A DREAM ON MY BACK UP RECORDER. I NOW HAVE COPIES MADE ON OTHER TAPES THAT DO LOAD ON MY MAIN RECORDER.
IF YOU WOULD LIKE THE ORIGINAL BACK SO THAT YOU CAN SELL IT FOR CASH, I WILL BE HAPPY TO RETURN IT.
THE GRAPHICS KEY THAT I SHOWED YOU THE DESIGN FOR HAS BEEN SIMPLIFIED EVEN MORE. NOW, I NEED TO GET MONEY TO MAKE THE PROTOTYPES. THE PROPOSED KEY LAYOUT IS BELOW:

I HOPE THAT THIS WILL WORK OUT WELL. ANY SUGGESTIONS ON KEY PLACEMENT ARE WELCOME. I HAVE THE TAPE BOXES AND WAFER BOXES DESIGNED ALSO.
EVERYTHING IS NOW WAITING ON FUNDING FOR PROTOTYPES.
IN THE SOFTWARE DEPARTMENT THINGS ARE A LITTLE EASIER. THE WORD PROCESSOR NEEDS TO BE MODIFIED IN THE EDITING AREA, AS WELL AS THE ARRAY SIZE. I AM REDOING THE EDITORS TO BE CONTROLLED BY THE ARRAY VARIABLES. DITTO FOR THE WORD WRAP SYSTEM. WHEN THAT IS DONE, ALL THAT YOU WILL NEED TO DO TO MODIFY IT WILL BE TO ALTER TWO VARIABLES.
THE UTILITY TAPE IS COMING ALONG O.K. BUT IT WILL NEED EXTENSIVE DOCUMENTATION. IT IS PLANED TO HAVE THE LINE RENUMBER PROGRAM IN THREE VERSIONS: 1.LOAD BEFORE A PROGRAMMING PROJECT 2.FOR RENUMBERING AN EXISTIG PROGRAM 3.FOR RENUMBERING WHILE CHAINING PROGRAMS. IT WILL ALSO CONTAIN THE WINDOW ROUTINE, THE INSTANT SCREEN, AND CHAINING ROUTINES. ANY SUGGESTIONS WILL BE APPRECIATED.

SINCERELY,
Glen Ten-Eyck
